

# Industry's Only Secure Guest Service

Uncompromising guest access with built-in Zero Trust security

## Secure Guest Access, Delivered As-a-Service

All guest traffic isolated and tunneled to a Nile-hosted cloud PoP for ultimate Zero Trust protection.

## Nile's Leading-Edge Differentiation

1.

### Per-Device Guest Segmentation

Architecture uniquely bypasses all internal network segments for high degree of security.

2.

### Automated Policy Enforcement

Policies automatically applied and enforced without manual configuration or NAC coordination.

3.

### Deterministic, Fabric-Wide Access Experience

Ensures predictable, high-performance access for any wired or wireless connection.

4.

### Consolidation Of Operations And Management

Eliminates dedicated NAC and DHCP solutions, and associated hardware and software burden.

5.

### Customizable Guest Portal

Easy-to-use guest interface that eliminates time-consuming IT and employee interaction.

6.

### Modern As-A-Service Delivery

Cost effective subscription model easily scales across any local or distributed environment.

## Nile Offers Unmatched IT And Business Advantages

Secure connectivity for campus and branch environments tailored to simplify WAN operations and complexity.

### Secure Intranet Protection

Organizations can now provide guest access without fear of compromising internal networks.

### Improved IT Efficiency

Eliminates intricate layers of a traditional network, firewall and segmentation complexity.

### Predictable Cost Optimization

Removes burden of purchasing, maintaining, and physical hardware lifecycle management.

## Carta Chooses Guest Service That Exceeds Strict Standards

Leading equity management firm fully isolates guest network from internal network, malware, and prying eyes

**"The Nile Guest Service has allowed us to provide internet access to our clients with the confidence that our internal assets and customer's data is isolated, helping us exceed internal and external compliance demands."**

Albert Jong,  
Senior IT engineer at Carta

## Nile Delivers The Industry's Only Secure Guest Access

- 1 Per-device isolation eliminates traditional guest network snooping and threats.
- 2 Includes Nile public IP addressing, software updates, and feature enhancements.
- 3 Secure access without reliance on complex encryption and access control solutions.

# Nile Makes Securing A Guest Network As Easy As 1, 2, 3

1.

Activation and use is enabled in minutes.

2.

Access privileges are easily defined without specialized NAC or IT expertise.

3.

Single dashboard for visibility of all relevant performance and utilization data.
