Live Events: A \$1Trillion+ Industry

When thousands connect at once, performance and security can't be left to chance

The Cost of Failure Can Be Catastrophic

The Breaking Point

Events often experience sudden spikes in users, devices, and traffic that legacy networks struggle to handle

The Domino Effect

One network disruption creates cascading operational, financial, and reputational consequences that effect future events.

Nile Secure NaaS: Built for Modern Events and Venues

Nile's Immediate Impact

Legacy Networks	Nile Secure NaaS
Slow, unreliable registration and ticketing apps	Fast, responsive apps, shorter lines
Unreliable, vulnerable PoS terminals	Reliable, secure mobile/stationary PoS terminals
Well-known attack surface	Per device isolation for containment of breaches
Vulnerable guest access	Industry's only secure guest access service
Extensive manual IT interaction	Nile AI-powered autonomous operations

About Nile

Nile is a pioneer and leader in secure network-as-a-service (NaaS). Our AI-powered service delivery and autonomous operations, cuts through complexity and cost versus legacy networking solutions, while delivering radical operational simplicity and user experiences.
