

Nile Professional Services

Expert-led Deployment and Migration Assistance

Tailored Project-based Network Resources

Nile's Professional Services support customer's lean IT teams facing tight timelines and complex integrations, delivering Day 0 and Day 1 deployment assistance designed specifically for each unique environment.

Where Nile Fills The Gap

1

New Deployments

Advisory planning, coordination, and guidance that augments internal resources.

2

Migration-specific initiatives

Advisory help that simplifies transitioning from an existing network to Nile NaaS.

3

Integration Projects

Advisory assistance for connecting existing cloud, security and IoT/OT systems, workflows, and operational tools.

These services are utilized by customers as an extension to Nile's Service Delivery responsibilities, which are included with every Nile deployment. Nile Professional Services resources are specifically assigned to help identify AP placement issues, firewall and router integration, and more.

Nile Professional Service Motions

	Nile Ready	Nile Propel
Best Fit	Organizations with tight timelines, lack of internal resources or expertise.	Organizations seeking Day 1 assurances that help guide installation teams ensure a smooth deployment.
Nile Responsibilities	Dedicated project management, planning, design guidance, and deployment readiness.	Execution of all activation activities, integration workflows, validation checklists, and knowledge transfer.
Expected Outcomes	Clear scope, alignment and implementation confidence.	Assurance that no steps are missed, activation performed successfully and problem-free production environments.

Nile Custom Projects

Nile Professional Services can also be utilized for end-to-end project execution, such as activities described in Ready and Propel, as well as:

- ✓ Performing physical site surveys
- ✓ Mounting access points
- ✓ Installing and cabling of switches
- ✓ Integration of endpoints and third-party solutions

Why Nile Professional Services?

Expertise that augments today's busy IT organizations where challenging timelines and complex use cases require dedicated Nile deployment and integration expertise is required - via on-site or remote planning sessions.

Reduced deployment and activation risk

Field-proven design and activation help that ensure Day 0 and Day 1 responsibilities of installation teams are properly performed.

Expertise that bridges the skills gap

You provide the business context; Nile provides needed assistance and experience that augments any sized team.

Short-term talent, permanent results

Deep and immediate expertise available to help with any new or existing Nile NaaS deployment, without the cost of hiring full-time staff.

Bottom Line

Leveraging dedicated network expertise maximizes operational uptime, protects internal resources, and drives strategic business growth by eliminating project delays and internal knowledge constraints.

How Nile Ready and Nile Propel Work Together

Category	Nile Ready	Nile Propel
1 Primary focus	✓ Assessment and design; create a validated blueprint and migration plan.	✓ Deployment, integration, and migration guidance that help improve production rollouts.
2 Timeline engagement	✓ Getting dates and next steps outlined before hardware is shipped or major changes are made to production.	✓ Assistance before installers activate Nile, cut over sites, and migrate users/devices on the Nile Fabric.
3 Key Activities	✓ Environment assessment, risk/constraint analysis, Zero Trust and segmentation design. Project management.	✓ Pre-activation planning, assisted integration guidance, overseeing turn-up, validation and testing. Project management.
4 Deliverables	✓ High-level/low-level design, assumptions and prerequisites, remediation recommendations.	✓ Validated deployment, integration and migration playbooks, operator training.
5 Who's Involved	✓ Customer network & security operations teams with Nile architects and planners.	✓ Customer operations/IT team and any responsible installation teams with Nile Service engineers.
6 When To Use	✓ When you need clarity and confidence in the design and migration plan before rollout.	✓ When expertise is needed to help execute Day 1 activation responsibilities and handing off to operations.

All-inclusive Pricing

Nile Professional Services are based on whether remote or on-site, offering organizations a flexible way to get targeted help that aligns budget and resource requirements. Available for both **Planning & Design** and **Implementation & Activation** activities, as well as custom projects.

About Nile

Nile is a pioneer and leader in secure networking-as-a-service (NaaS). With AI-powered service delivery and autonomous operations, Nile solutions cut through complexity and cost versus legacy networking solutions, while delivering radical operational simplicity and user experiences.
